DETAILED ACTION

Drawings

The objection to the drawing, outlined in the previous Office Action, is withdrawn. Applicant's arguments have been carefully considered and are persuasive.

Specification

The objection to the specification, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment supplies the parentage.

Claim Objections Withdrawn

The objection to claim 33, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment corrects the claim text as appropriate.

112 Rejections Withdrawn

The rejection of claims 29-37 under 35 USC 112, second paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. With respect to claim 29, the amendment clarifies the claim test as appropriate. With respect to the remaining claims, the rejection is moot.

103 Rejections Withdrawn

The rejection of claim 38 under 35 USC 103(a), outlined in the previous Office Action, is withdrawn. Applicant's arguments have been carefully considered and are persuasive.

Allowability Withdrawn

The allowability of claims 23, 24 and 27, indicated in the previous Office Action, is withdrawn. A rejection follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 23, 24, 27, 32, 33 and 36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. For instance, for claim 23, the specification (page 6, line 11) does not encompass the expanded scope (...comprising...) of the instant claim text. Analysis of the remaining claims is similar.

Allowable Subject Matter

Claims 20-22, 25, 26, 28-31, 34, 35, 37-40 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
